Leaving you with nothing but the What's New in SABnzbd+ SABnzbd+ is a web-interface based binary newsgrabber written in python, with nzb file support.. Send nzb data files to SABnzbd (double-click). Both of these pieces of software are GREAT at what they do Sab outdoes Unison with NZB, PAR & RAR tasks, but Unison outdoes Sab in-that it can actually browse Usenet and 'Quicklook' at binaries without requiring Downloads to the Local File System.. SABnzbd is usually the best alt binz for Mac alternative Get a plan like alt binz for Macintosh Searching around for an alternate to alt.. That said, I've recently setup an ESXi Server at home and am looking for a News Browser for Windows and have yet to be able to find anything that comes even close to Unison.. Functions Status Icons (Nonproductive, PAUSED, DOWNLOADING) Growl announcements.. SABnzbd takes up a position in the top News & Books software list and has been chosen by millions of users.. SABnzbdPlus is a free news client with many abilities, such as: • Download files from your newshost • Access the news client from any Internet connection.
